this book examines green transition and circular economy in the fields of building design and real estate management by outlining windows for seizing the opportunity to integrate circular approaches in current building practices the book provides information tools to support building stakeholders e g building designer and managers manufacturers real estate owners maintenance operators facility managers etc in i understanding circular re strategies e g reuse remanufacturing repurposing etc the related requirements and the pre conditions for their implementation within building design and management practices ii reviewing design approaches at the product and building scale also highlighting new circularity related contents for the briefing documents iii developing circular organizational and contract models for the procurement of facility management services also integrating new circularity related contents in invitations to tenders itts and iv assessing the quality and the effectiveness of circular practices also highlighting circularity performance metrics and indicators in the context of corporate sustainability reporting

this book provides a first of its kind analysis of the emerging global hydrogen economy

from the vantage point of one of the world's biggest energy providers saudi arabia in 2021 and within the context of the circular carbon economy framework saudi arabia announced its goal to reach net zero carbon emissions by 2060 and produce a substantial amount of clean hydrogen annually by 2030 the kingdom is optimally situated geographically between the major demand markets in europe and north asia from where it can leverage clean hydrogen exports as a potential tool to become a player of strategic importance and successfully diversify its economy under its vision 2030 program more broadly the book charts a course for fossil fuel exporting countries such as saudi arabia to carve a competitive position for themselves over the forthcoming decades using clean hydrogen as a catalyst for the energy transition with contributions from global energy experts the chapters in this book provide a multifaceted analysis of the who what where and why related to clean hydrogen development within and beyond saudi arabia collectively the contributions analyze the countries and regions relevant to saudi arabia in terms of dedicated hydrogen policies projects and approaches that aim to incentivize production and demand in an increasingly carbon constrained world the book is a timely unique and an indispensable resource for practitioners and students of energy geopolitics and climate policy working on hydrogen in academia applied research national government bodies and international organizations the open access version of this book available at taylorfrancis.com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

there is a distinct lack of discussion pertaining to the lasting damage narcissistic parents inflict on their children a shortfall so intense that some of the victims themselves don't recognise the harm done to them either or accept the abuse as being their fault one of the saddest things is that most children or grown up survivors never get help or relate their lifelong relationship troubles back to their real origins they are often categorised by society as having only suffered emotional abuse at best it is disappointing how lots of professionals and in particular physicians and counsellors minimise the pain those who have lived through lasting emotional trauma are feeling and the impact it has on the patients physical and psychological well being don't judge and condemn what you

don't understand by taking the reader through my own personal journey dealing with this kind of abuse i aim to present how detrimental emotional abuse can be and try to bridge that above mentioned gap in general knowledge

following a robust recovery growth has slowed and the economy has been running at two speeds headline inflation has fallen but underlying price pressures remain high

the who global alcohol action plan 2022 2030 aims to accelerate the implementation of high impact interventions for alcohol consumption and related harm such interventions are often implemented through laws and regulations this publication seeks to support countries in designing legislation and regulations to effectively implement policies that reduce population level alcohol consumption and related harm support compliance monitoring and enable enforcement the publication describes the legal powers duties and restraints to legislate or regulate alcoholic beverages provides different options to implement each intervention and examines legal considerations in the design and implementation of specific interventions that can strengthen a government's legal position

recent financial crisis and the global financial impacts of the covid 19 pandemic have brought renewed interest to the regulation and practice of corporate insolvency and restructuring modernisation of the insolvency profession and the regulation of its practitioners is a contemporary concern and recent years have seen significant reforms of insolvency law the success of such reforms can be enhanced through a clear understanding of difficulties faced by the insolvency profession in achieving successful restructuring and insolvency outcomes and through the determination of effective solutions to those difficulties however there is limited empirical data to inform the day to day practice of insolvency nor the difficulties experienced by insolvency practitioners in pursing insolvency and restructuring solutions this book addresses this absence of data and understanding examining the role and practice of corporate insolvency practitioners and exploring the challenges that they encounter offering an empirical study together with a comparative analysis of the experiences of practitioners around the world this book facilitates a greater understanding of corporate insolvency practice

confronting a misunderstanding of and under confidence in corporate insolvency practitioners making it key reading for academics practitioners and regulators working in the area of corporate insolvency
